Item 5

The point of diversion is in Lake Tahoe and a public survey of the Sectional Breakdown in the Lake is not available. Therefore, the 40-acre subdivision within which the point of diversion is located is not shown.

Item 15

The purpose of this application is to move the water rights previously owned by the Cave Rock Water Company and now owned by Douglas County so that when the regional water system project combining the Skyland Water System and the Cave Rock Water System is completed the water rights for the new system are in order.

Please use the map filed in support of Permit 38785 to show the existing point of diversion and existing place of use.
